ALORI: Scaling Women's Hormonal Wellness via High-Converting Shopify Architecture

How strategic discovery, strict brand guideline execution, and conversion-engineered UI/UX transformed a luxury wellness vision into a commercial powerhouse.

BRAND & STORE	SHOPIFY ARCHITECT	CORE DELIVERABLE	CLIENT RATING
ALORI Life	Irfana Latif	Custom Liquid / CRO	5.0 / 5.0 ★★★★★

🔒 **CLIENT CONFIDENTIALITY & MUTUAL APPROVAL DISCLOSURE**

This official case study has been documented and published strictly following explicit client consent and mutual approval. As a trusted e-commerce specialist, client privacy, trade confidentiality, and non-disclosure requests are always honored unconditionally. ALORI remains one of my absolute favorite flagship stores, and this case study documents the creative collaboration, technical execution, and commercial results achieved in close partnership with the brand founder.

1 Project Origin & The Client's Mandate

The real journey began when the founder of ALORI approached me with a crystal-clear, sales-driven mandate:

> *"I want to build a brand that doesn't just look pretty, but converts visitors into actual sales."*

In a saturated women's wellness sector filled with generic "catch-all" hormone pills, ALORI held a breakthrough scientific angle: **unbundling cortisol regulation (stress, sleep, burnout) from estrogen balance (cycle regularity, mood, metabolic health)**. Our mission was to build a digital home that honored luxury beauty standards while relentlessly optimizing for conversions and recurring monthly subscriptions.

2 The 6 Strategic Discovery Questions

To establish alignment and eliminate guesswork before touching development, I conducted an in-depth discovery audit covering six critical pillars:

1. Reference Stores & Visual Benchmark

Question: Do you have any reference stores or inspirations?
Outcome: Client targeted an editorial, warm-neutral apothecary aesthetic reminiscent of cult luxury wellness brands (clean serif typography, organic photography).

2. Product Content & Descriptions

Question: Do you have complete product content, ingredient breakdowns, and photography?
Outcome: Client provided initial product copy, clinical ingredient listings, and studio-grade 3D product renders.

3. Brand Kit & Legal Policies

Question: Do you have your brand kit, fonts, and store legal policies ready?
Outcome: Client delivered complete vector logos, custom font packages, a master 32-slide brand guidelines deck, and legal terms.

4. Technical On-Page SEO

Question: Do you require technical SEO and structured data schema?
Outcome: Implemented comprehensive JSON-LD product schemas, open-graph hierarchy, and semantic headings for Google ranking.

5. Target Launch Timeline

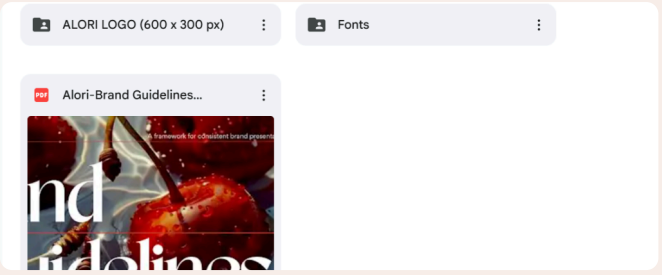

Question: What is your hard launch timeline?
Outcome: Structured an agile multi-week roadmap for design, development, payment integration, and QA testing.

6. Project Budget & App Stack

Question: What is your allocated budget for custom theme builds and app subscriptions?
Outcome: Fully funded budget allocated for custom Shopify Liquid development, recurring billing setup (**Seal Subscriptions**), and performance tuning.

3 Brand Guidelines (32-Slide Master Guide) & Asset Implementation

The client provided a complete brand kit centered around a **32-slide master Brand Guidelines document**. Every section of the store strictly adopted this visual language down to the pixel:

Master Delivery: Vector Logos (600×300 px), Fonts, & 32-Slide Brand Guidelines PDF

Slide Overview: Foundational 9 Slides Previewed from the Master 32-Slide Guide

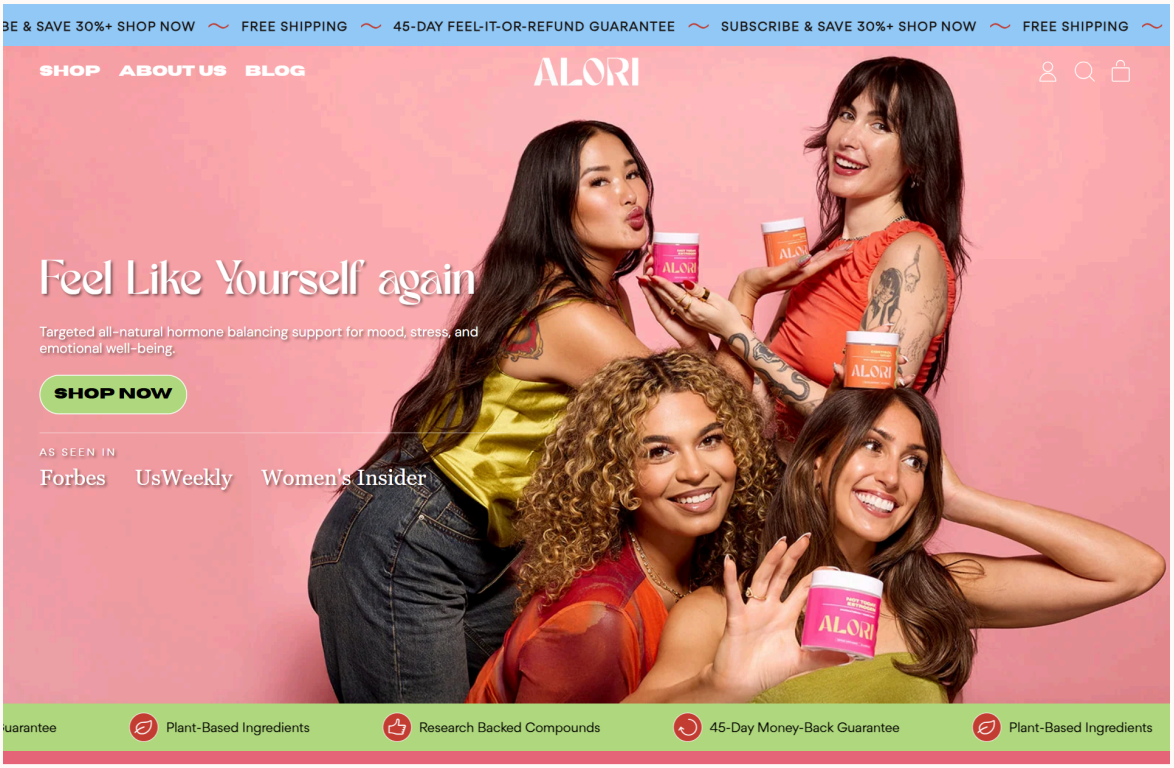

- ✓ **The 32-Slide System:** Encompassed logo usage rules, packaging hierarchy, typography pairings, color tokenization, and communication tone.
- ✓ **Exact Palette Tokenization:** Implemented CSS custom variables for terracotta (`#B93B2A`), powder sky-blue (`#A4CCED`), blush peach (`#F4C7C1`), and warm cream.
- ✓ **Typography Engine:** Styled distinctive editorial serif headlines paired with clean, accessible sans-serif body copy with zero layout shifts.

4 Homepage Architecture: CRO Section-by-Section Breakdown

The homepage was designed as an intentional, high-converting funnel engineered to guide visitors smoothly from awareness to checkout:

1. Hero Header & Immediate Value Proposition

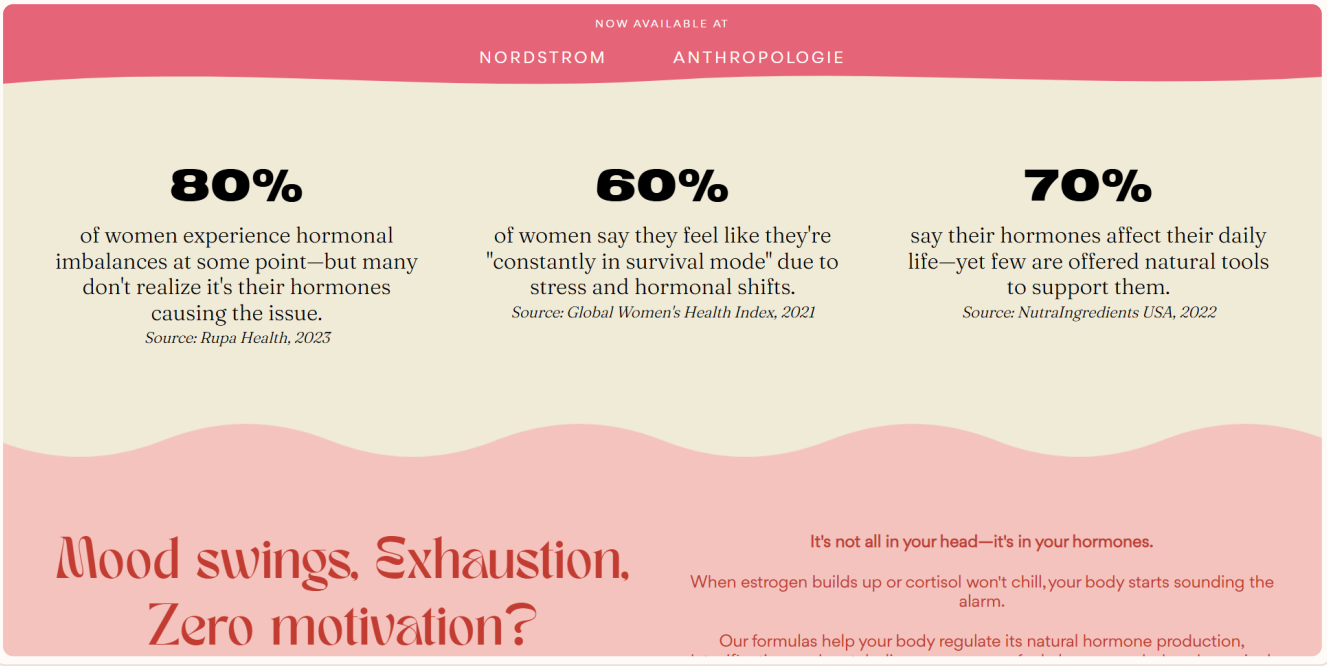

ATTENTION & HOOK

- ✓ **Clear Value Match:** Communicates the core benefit (natural hormone balance) within 3 seconds above the fold.
- ✓ **Sticky Incentives:** Announcement bar featuring free shipping thresholds and special launch offers.
- ✓ **Visual Anchoring:** Studio bottle render placed right alongside the primary "Shop Now" call to action.

2. Credibility, Press & Trust Indicators

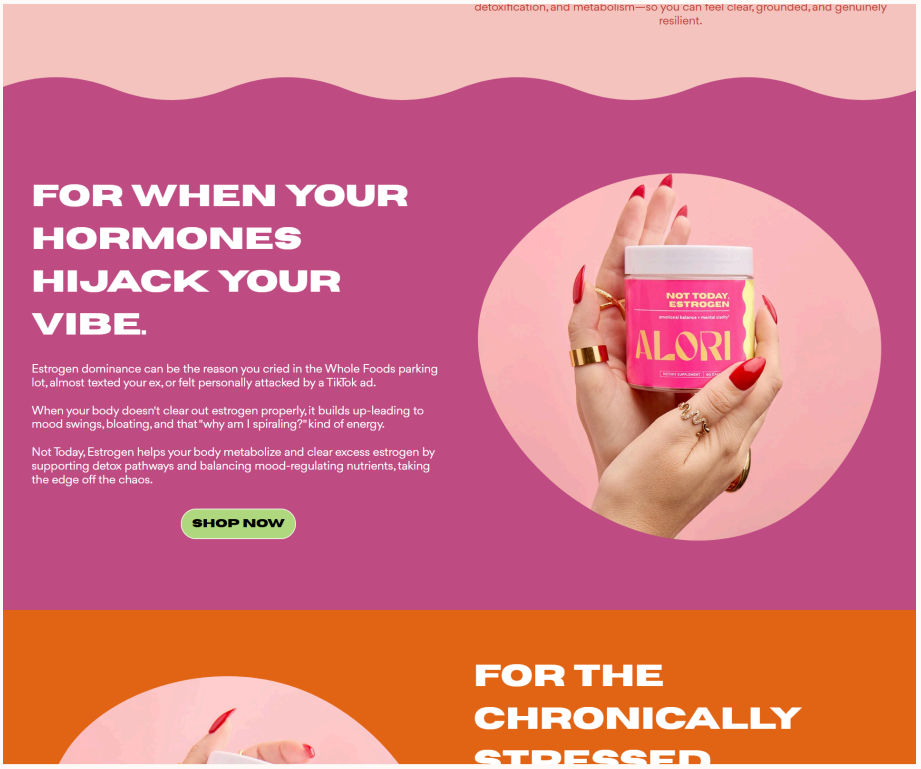

SKEPTICISM REDUCTION

- ✓ **"As Seen In" Badges:** Positions the brand alongside recognized lifestyle authorities and wellness press.
- ✓ **Clean Formulation Badges:** 100% Plant-Based, Stimulant-Free, Non-GMO, and Lab-Tested certifications build instant credibility.

3. Flagship Products & Bundle Price Anchoring

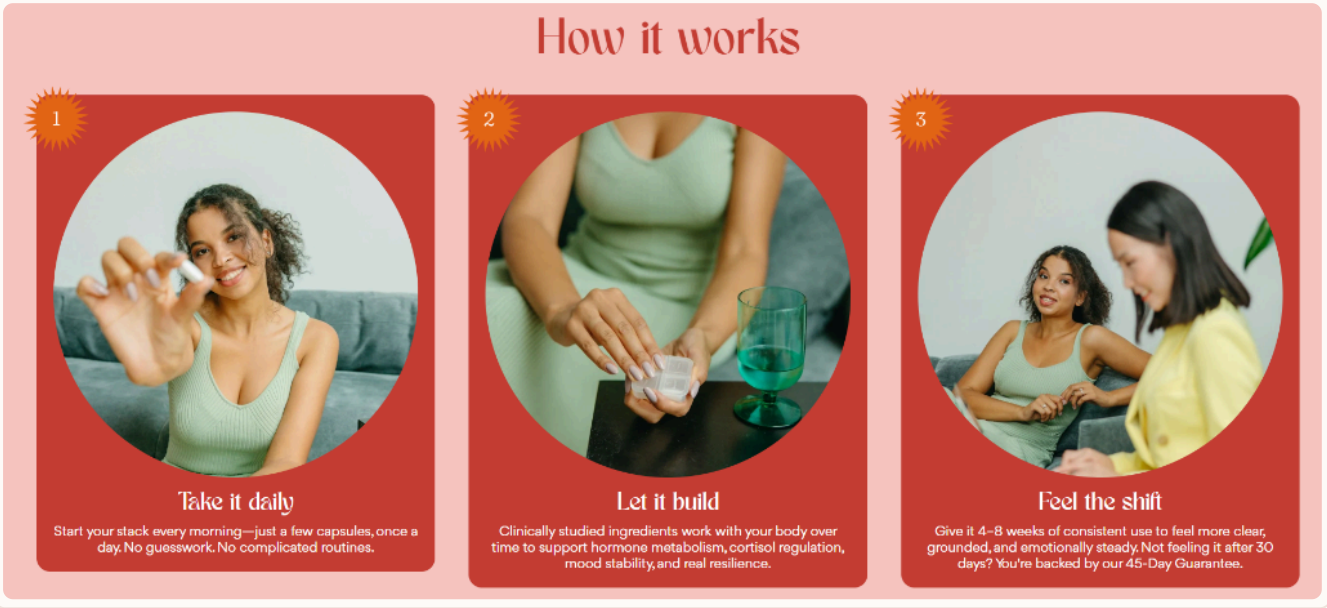

AOV MAXIMIZATION

- ✓ **Clear Pathway Separation:** Distinct separation between *Cortisol, Who?* and *Not Today, Estrogen* prevents customer choice fatigue.
- ✓ **The Bundle Hook:** Highlights *The Balanced Baddie Bundle* prominently, offering an attractive discount that instantly boosts Average Order Value (AOV).

4. "How It Works" 3-Step Protocol

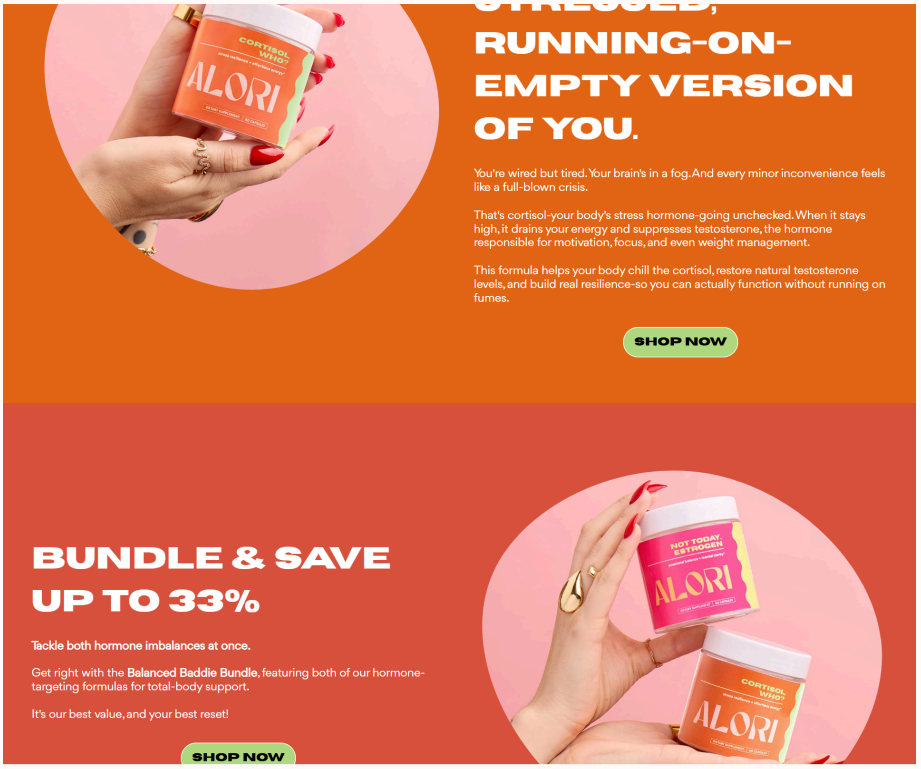

ROUTINE CLARITY & RETENTION

- ✓ **Step 1 (Take it daily):** Removes intimidation ("Start your stack every morning—just a few capsules, once a day. No guesswork.").
- ✓ **Step 2 (Let it build):** Sets realistic expectations on how clinical adaptogens support hormone metabolism over time.
- ✓ **Step 3 (Feel the shift):** Outlines the 4–8 week window to feel grounded, reinforced by the safety of the 45-Day Guarantee.
- ✓ **Brand Identity Match:** Built with signature terracotta cards on blush background using sunburst step numbers.

5. Clinical Transparency & Ingredient Education

OBJECTION HANDLING

- ✓ **Deconstructing Adaptogens:** Openly reveals clinical dosages of Rhodiola Rosea, Tongkat Ali, Shilajit, Pregnenolone, and BioPerine.
- ✓ **Biological Explanation:** Explains how cortisol overload triggers facial puffiness, midday crashes, and sleep disruption.

6. "Real Stories. Real Symptoms. Real Relief." (UGC & Social Proof)

RELATABLE PROOF

- ✓ **Symptom-Specific Relatability:** Shares unfiltered quotes from real women addressing estrogen overload, birth control changes, and corporate stress burnout.
- ✓ **Visual Aesthetic:** High-contrast terracotta serif typography paired with powder sky-blue backdrop.
- ✓ **Product Attribution:** Each reviewer's story links directly to the specific formula they used.

7. Founder Story & Human Connection

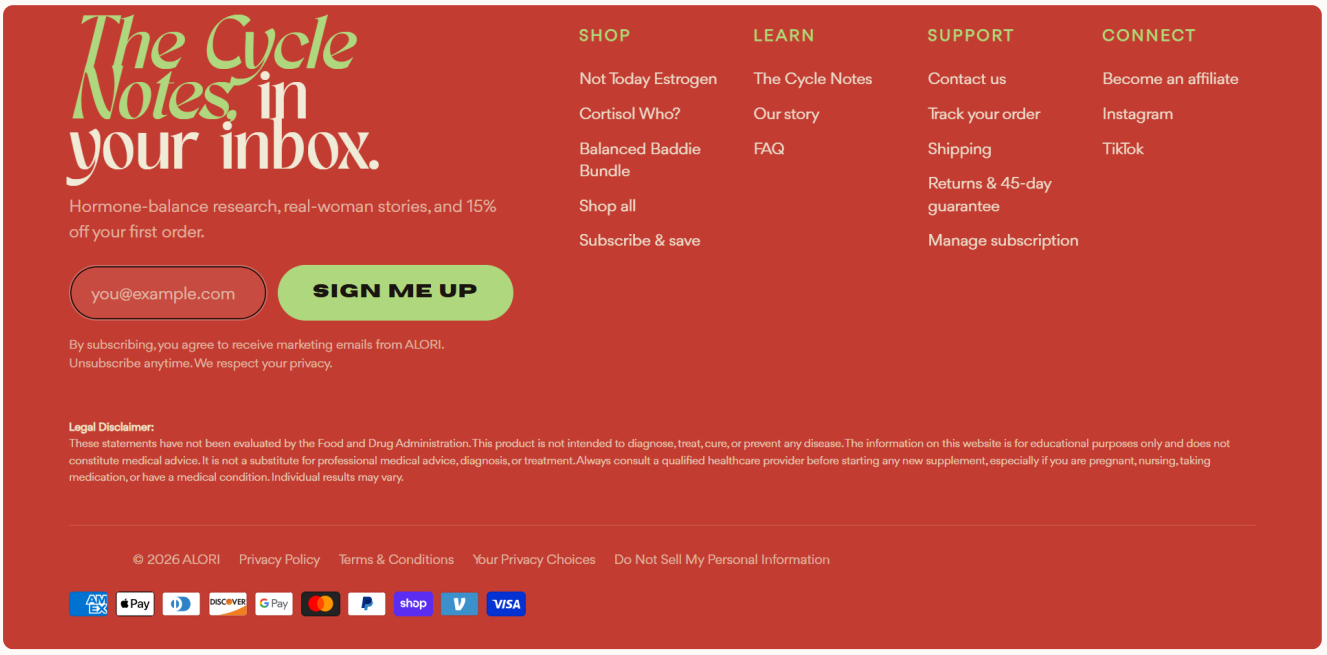

BRAND AFFINITY

- ✓ **Founder Authenticity:** Shares Karalyn Zamora's personal battle with hormonal burnout, establishing an empathetic peer-to-peer relationship.
- ✓ **Elevated Editorial:** High-end lifestyle imagery and editorial quotes elevate the brand far above sterile generic supplements.

8. Risk Reversals & 45-Day Satisfaction Guarantee

CHECKOUT CONFIDENCE

- ✓ **45-Day Money-Back Guarantee:** Removes all purchase hesitation for first-time buyers.
- ✓ **Self-Serve Subscription Portal:** Prominent reassurance that subscriptions can be paused or cancelled anytime.

5 Bespoke Product Detail Page (PDP) Architecture

Every Product Detail Page was developed with bespoke liquid architecture tailored to each formula:

Distinct Color Schemas

Warm amber and citrus hues for *Cortisol, Who?*; delicate rose blush accents for *Not Today, Estrogen*.

Mobile-First Sticky ATC

Persistent sticky "Add to Cart" bar ensuring the purchase trigger is always within thumb reach on mobile devices.

Subscription Engine via Seal Subscriptions

Seamless recurring order integration driving automated monthly subscriptions ($79.72 Bundle & $48.99 Single SKU).

Interactive Nutritional Drawers

Slide-out Supplement Facts and daily routine instructions (AM/PM timing) for maximum clarity.

6 Commercial Results: Live Daily Orders in Just 3 Months

Within **just 3 months since going live**, the store has generated steady, high-velocity daily sales with strong recurring revenue:

7 Verified Client Feedback & Testimonial

The project concluded with mutual praise and a verified 5.0-star Upwork review from the founder:

★★★★★

"Super great to work with! Irfana was able to help me get my new site ready for launch and was very collaborative and communicative throughout the entire project."

Founder & Client, ALORI • 5.0 / 5.0 Rating
